Functionality delivered

This version delivers all previously supported functionality. No New functionality is being delivered with this version of Data Migration Manager.

Work Item which have been resolved in this release

Id	Headline
wi00888193	SR 1-1478719731: DMM is failing to migrate mailboxes voice messages, different ones fail on different DMM tries. With this update, DMM will migrate the voice messages to BCM successfully.
